

homethrive

Allowing employees to bring their best selves to work.

Caregiving is a business distraction too large to ignore.

75% of caregivers are women, who often care for both aging loved ones and kids

33% of caregivers have left a job due to the stress of caregiving

60% of caregivers are diagnosed with a chronic mental health condition

Give your employees the gift of support

Homethrive works with your organization to reimagine how your family caregiving population, and their aging or special needs loved ones, are supported.

Together, we'll make sure no employee is left behind.

Dari by Homethrive is an employee benefit that helps ease the impact of family caregiving by uniquely integrating our **digital assistant** for coaching, navigation, and resources with **expert personal interaction** and **service coordination**.
